POST-ELECTION SYMPOSIUM HEALTH CARE POLICY IN 2017

ALLIANCE
FOR HEALTH REFORM
25TH ANNIVERSARY

TO OUR FRIENDS AND SUPPORTERS:

This fall, we kicked off the celebration of the Alliance's 25th anniversary. Since our founding, the Alliance has worked to inform the health policy discussion as a trusted nonpartisan source. Twenty-five years later, while the dialogue has not gotten easier, we continue to move the conversation forward by serving as an honest broker in the D.C. health policy community.

To add to the dialogue, we are launching a series of three summits in 2017 on the future of the health care. Each of these summits examines ongoing progress and prospects for moving forward on three critical health policy issues: health care workforce, chronic care, and health insurance.

In addition, the Alliance will continue to host our popular lunchtime briefings, reporter briefings and off-the-record meetings with members of Congress and staff.

We're glad you could join today's Health Care in 2017 Symposium, and we look forward to your continued participation in Alliance events. **Thanks again for your support!**

Sincerely,
Sarah Dash & Marilyn Serafini

THE ALLIANCE FOR HEALTH REFORM

**We are the organization Congress turns to
for trusted health policy information.**

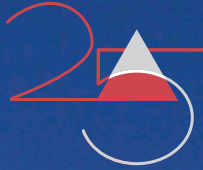

The Alliance for Health Reform is a nonpartisan, not-for-profit organization dedicated to helping policymakers understand the foundations of health policy, the roots of the nation's health care issues, and the trade-offs posed by various proposals for change. Since our founding nearly 25 years ago, we have earned a reputation as an honest broker in the Washington, D.C., health policy community.

For nearly 25 years, the Alliance has been helping to clarify and synthesize the issues for generations of policymakers and staff. But we do more than inform policymakers—we create a forum for dialogue by bringing together the health policy community to advance the conversation on tough issues. The Alliance has conducted hundreds of briefings on Capitol Hill and around the nation on timely and important health policy topics. Our events are among the most widely respected and well-attended inside the Beltway, regularly drawing audiences of 200 or more congressional and agency staff, media, and the broader health policy community. Whether they are new to health policy or seasoned experts, our audience looks to the Alliance as the trusted source of health policy information.
