Centurion[™]

Innovative managed care within the correctional setting:

- Evidence-based treatment protocols
- Predictive modeling, preventive medicine
- Chronic care and disease management
- High-quality, on-site staffing model and recruitment strategies

State-Funded Prison System

- Approximately 21,000 Inmates across TN
- Challenges
 - Behavioral Health
 - Unique Populations – e.g., Older Adults, Females, Hepatitis C
- In less than one year, Centurion...
 - Decreased ER and hospital admissions by improving the scope of services provided in on-site infirmaries.
 - Installed telehealth across the state.
 - Introduced on-site MRI and CT services, reducing need to transport individuals off-site.
 - Hired additional healthcare professionals for TN facilities.

- **Conditions**

- Depression, Schizophrenia, Bi-Polar
- Self-Injurious Behavior
- Substance Abuse
- History of Violence

- **Treatment**

- Centurion offers a multi-dimensional approach
- Poly-pharmacy Management

- Older Adults
- Females
- Hepatitis C

- Tele-health
- On-Site Chemotherapy
- Health and Wellness Program

The Future

Healthcare Re-Entry & Medical Home

- **Integration of Behavioral and Medical Health**
- **Electronic Health Records** - Consider providing incentives for EHR acquisition by Departments of Correction
 - Consider collaboration with US Public Health System
- **Correctional Healthcare Training and Recruitment Programs** - Enhancing the talent pool through collaboration between DOCs and medical institutions
 - National Health Service Corps – type program
 - Providing Specialized Medical and Residency Training
