ALLIANCE
FOR HEALTH POLICY

ASSOCIATE PROFESSOR OF MEDICINE
Johns Hopkins University

Who was a mentor or role model for you, and what did they teach you?

Gail Wilensky: do the hard work as there are no shortcuts – and always buy a convertible.

What's one piece of advice you'd give to someone newer in their health policy career?

Say yes to coffee and croissant chats.

What keeps you hopeful in this work?

Every year I have more fun and find more areas of agreement with a wider range of people than the year before.
