HIG SEVIGNY

ALLIANCE
FOR HEALTH POLICY

BIPARTISAN LEARNING COMMUNITIES
CONGRESSIONAL FELLOW

What's one thing you've learned during this fellowship that will stick with you?

I have appreciated learning directly from healthcare experts. A key takeaway from our September session that resonated with me was the belief that healthcare policy is often reactive rather than proactive and preventive. This is something I want to think more about and apply to my work on the Hill.

What does leadership look like to you at this stage in your career?

Leaders are those who seek to better themselves and welcome opportunities to grow and challenge their thinking. I see a leader as someone who not only works to better themselves but also the people around them as well.

What are the areas in health policy you are excited to learn?

The fellowship has allowed me to expand my understanding of healthcare regulation. This is an area I'd like to better understand as I navigate healthcare policy on the Hill.
